**Purpose:**

This newsletter was designed to improve the communication among all the planners and others throughout the Corps with respect to planning. It contains information such as perspectives from those on the front lines in the districts, facts about interesting studies or projects being conducted, and the use of new technology in Corps projects. Each team member is assigned a column in which they are responsible for submitting an article to the editor monthly.

**Objective:**

1)Request featured articles and announcements from district and division offices. 2)Conduct interviews to introduce new senior leaders of the Corps. 3)A leader of the planning community and/or a Planning Technical Specialist (Tech 13) is featured every month. 4)Update & maintain distribution listcurrently holds over 800 subscribers.
